SUMMARY

Data Analyst with 1+ year of experience in SQL, Python, Excel, and Power BI, specializing in business analysis, KPI reporting, and interactive dashboard development. Skilled in analyzing complex datasets, identifying business trends, and delivering actionable insights to support stakeholder decision-making and improve business performance.

SKILLS

Programming: Python (NumPy, Pandas, Matplotlib)

SQL: MySQL, PostgreSQL

Analytics Tools: Power BI (DAX, Data Modeling), MS Excel (Lookup Functions, Pivot Tables)

Core Skills: Data Cleaning, Exploratory Data Analysis, KPI Analysis, Dashboard Development, Business Insights, Statistics

WORK EXPERIENCE

Data Analyst | HCLTech

Sep 2025 – Present

- Analyzed **50,000+** pharmaceutical inventory records using SQL across inventory, stock movement, warehouse, and material datasets, performing data validation to ensure data accuracy and consistency.
- Developed Excel dashboards using Pivot Tables and Conditional Formatting to monitor inventory levels, near-expiry stock, warehouse utilization, and stock aging, improving reporting efficiency by approximately **30%**.
- Performed SQL analysis on stock movement transactions across multiple warehouses to evaluate FEFO compliance and identify slow-moving inventory, reducing manual inventory tracking effort by **20%** and enabling faster inventory reviews.
- Delivered inventory reports and operational insights to stakeholders, enabling better inventory planning, stock optimization, and data-driven decision-making.

Data Analyst Intern | NU Intelligence Pvt. Ltd.

Jan 2025 – Jun 2025

- Queried and processed data for **3,000+** students using SQL, ensuring accuracy across enrollment, progress, and completion tracking.
- Leveraged MS Excel (VLOOKUP, INDEX-MATCH, Pivot Tables) to consolidate large datasets, perform quality checks, and analyze course-wise trends.
- Identified low-engagement segments and completion patterns through data analysis, improving follow-up efficiency by **15%**.
- Built interactive Power BI dashboards and collaborated with academic teams to monitor monthly performance and support academic planning.

PROJECTS

E-Commerce Returns & Refund Loss Analytics | PostgreSQL, Power BI, DAX

GitHub

- Engineered an end-to-end Business Intelligence solution processing **540K+** e-commerce transactions, leveraging SQL to clean, transform, and analyze return patterns across customer, product, and country dimensions.
- Developed SQL-based customer risk segmentation, classifying **4,371** customers into High, Medium, and Low risk tiers while identifying **103** high-risk and **220** repeat-return customers to support targeted retention strategies.
- Built **3** interactive Power BI dashboards with DAX-based KPIs to monitor **£8.89M** revenue, **£608.69K** refund loss, and a **16.47%** return ratio, enabling real-time business performance monitoring.
- Identified key refund-loss drivers across products and countries, delivering actionable recommendations to improve product quality, optimize logistics, and enhance profitability.

Warehouse Delay & Damage Analytics | SQL, Python, Power BI, AWS

GitHub

- Analyzed **25,000+** shipment records using MySQL on AWS RDS, uncovering a **22.7%** shipment delay rate through CTEs and window functions while evaluating delivery delays, damage trends, and warehouse performance across **7** warehouses.
- Standardized and transformed logistics data using Python (Pandas), improving data quality and creating business-ready features for SLA and warehouse performance analysis.
- Designed a star schema data model in Power BI and built a **3-page** interactive dashboard to monitor delivery success, SLA compliance, damage cost, warehouse performance, and delivery partner performance.
- Performed **Pareto analysis**, revealing that weather, staff shortages, and traffic accounted for over **55%** of shipment delays, highlighting the key operational drivers behind delivery delays.

EDUCATION

Yeshwantrao Chavan College of Engineering

Dec 2021 – Jun 2025

B.Tech in Computer Technology

CGPA: 7.80

HSC: 91.83%

Aug 2020 – Mar 2021

SSC: 90.60%

Jun 2018 – Mar 2019

CERTIFICATIONS

Data Analyst Certification – LinkedIn Learning

Certificate
